

Please buy a vital piece of equipment this Christmas to help children with disabilities.

Your special Christmas gift for the CatholicCare Early Childhood Intervention Program will help children aged 6-12 years old as they make the important transition to school. Equipment purchased will be used by CatholicCare therapists or loaned out to families.

\$20-\$50

\$21⁰⁰

01 Ear Defenders

Great for children who are bothered by loud sounds and noisy classroom environments.

\$34⁹⁵

02 Phonics Word Wall Display

Ideal for teaching and reinforcing the learning of basic words.

\$39⁹⁵

03 Move & Sit Cushion

Provides children with the movement they need while staying seated, including in the classroom.

\$48²⁹

04 Mighty Mini Band

Supports the development of coordination, fine motor, sensory and basic musical skills.

\$50-\$100

\$60⁴⁵

05 Emotions Game

Allows children to easily learn about human emotions through role play with the wooden emotions face paddles.

\$79⁰⁰

06 Trapeze Bar

This swinging trapeze bar helps to develop muscle tone, balance and hand-eye coordination. Great for a rainy day!

07 Sensory Crash Mat

Children love to jump and crash into these foam-filled crash mats, providing much needed heavy work and deep pressure input.

\$89⁹⁵

\$100-\$250

\$119⁹⁵

08 Mirrored Sensory Tray

Children can create a small world with this tray, exploring reflection and shapes. They are encouraged to investigate and develop ideas and hypothesis.

\$130⁰⁰

09 Calming Collar

The deep pressure applied by the weight of the collar helps increase concentration by shifting focus to the body and away from distractions.

\$192³⁹

10 Finger Phonics Books Set

Teaches how to recognise and form the 42 main letter sounds. Each book covers a specific group of letters and includes an action and storyline for every sound.

\$197⁹⁵

11 Emotional Wellbeing Set

A collection of resources that helps children move in response to a variety of feelings and emotions. Promotes social and emotional development.

\$203⁰⁰

12 Therapeutic Listening Headphones

These high quality stereo headphones feature improved audio technology and design, specifically for use with Therapeutic Listening.

\$249⁹⁵

13 Magnetic Polydron Set

This set is excellent for teaching three-dimensional geometry and design concepts. It encourages problem solving and provides an open ended and fun learning experience.

\$250-\$500

14 Wishbone Balance Bike

Designed for children who don't yet possess enough strength or understanding to pedal. Great for improving balance and coordination.

\$289⁰⁰

\$399⁰⁰

15 Forbrain Headphones

These special headphones enhance long vowels and other sounds critical to the construction of language. The resulting sound is delivered through the bones, not the ears, to the nervous system and brain.

\$472⁹⁷

16 Sensory path

This set of 7 wooden stepping stones and assorted resources is perfect for creating a sensory experience. Creative and imaginative play helps children to develop language and communication skills.

\$500-\$1,000

\$639⁰⁰

17 Soft Play Foam

These brightly coloured soft shapes are great for role play, construction and creating an obstacle course. They help to develop positive social interactions and problem solving skills.

\$878⁰⁰

18 Rhythm and Percussion Set (99 pieces)

Children will have the opportunity to express their creative skills through singing, dancing and playing these instruments. Great for children who have difficulties with conventional methods of learning.

\$1,000+

\$2,899

19 Leveled Literacy Intervention Orange System

This supplementary intervention program provides the intensive support required to help students achieve grade level competency in reading, writing and comprehension, as well as a clear framework for teachers to track and monitor achievement. develop ideas and hypothesis.

\$7,199

20 Leveled Literacy Intervention Red System

This small-group intervention program is designed to help teachers provide powerful, daily, small-group instruction for children with learning difficulties. It helps to monitor and assess achievements in reading, writing and comprehension skills.

Note: The equipment list has been developed in consultation with the Team Leader of CatholicCare's Early Childhood Intervention Program. Actual equipment purchases will be based on the greatest need at the time. Where monies raised exceed equipment needs, funds will be directed to the Early Childhood Intervention Program at the discretion of the CatholicCare CEO.
